Walter H. Schmitt, D.C.  
APPLIED KINESIOLOGY

Christopher Weidig, O.D.  
OPTOMETRY

Carl Weisse, D.C.  
APPLIED KINESIOLOGY

At our Institutes in the United States, Italy and Japan we provide a five day introductory orientation course that explains our home neurological developmental program for brain-injured children. Before the child can be evaluated by the Clinical Staff of The Institutes both parents must take our What To Do About Your Brain Injured Child course.

After parents have taken the course and they have done a home program or if they have been doing a home program before they came for the course, they are eligible to join our intensive treatment program where they revisit The Institutes approximately every six months and have their child re-evaluated and their home program adjusted to meet their child's individual needs.

The Kamelinova Family have an appointment for Dina, in our facility in the United States from February 18, 2013 through February 21, 2013.

Sincerely,

Leland J. Green, MD  
Medical Director
